UNDERGROUND ASSOCIATES

CALLER HANDBOOK

On the phone and at the door.

Everything you need to show a business their new website, answer their questions, and sign them up, on a call or in person.

INSIDE

- The basics
- On the phone
- Signing up and payment
- Logging and follow-up
- Before you start
- In person
- Objection answers
- Cut-out cards

Underground Associates LLC · Cullman County, Alabama

October 2026 edition · Internal use

How to use this handbook

Read it all once, then keep the cards with you

1	The basics	plans, prices, promises
2	Before you start	prep in two minutes
3	On the phone	the call, step by step
4	In person	the walk-in, step by step
5	Signing up and payment	on your phone, in three minutes
6	Objection answers	what they say, what you say
7	Logging and follow-up	every call, every time
8	Cut-out cards	for your pocket

THE GOLDEN RULES

- Be friendly and honest. Never promise rankings, customers or dates.
- Text a preview link only after they say it's OK.
- Never take a card number by phone or write one down.
- Log every call and visit before the next one.
- A second no is a no.

Caller name and signature: I've read this handbook

Date

1 The basics

What every person on the team must know

We find local businesses with no website, or only a Facebook page, and build their website before we ever contact them. The owner sees their own finished site, not a sales pitch. If they like it, they pay monthly and we keep it running.

OUR ONE MESSAGE

We already built your business a website. Come see it.

Why it works

The owner doesn't have to imagine anything. Their name, hours, services and phone number are already on a finished site they can scroll on their own phone.

Plans

Plan	Per month	Who it fits	What's included
Basic	$49	Just needs to be found and get calls	Website on fast, secure hosting · small text, hours and photo updates · tap to call and directions on every page
Plus Lead with this	$89	Most businesses; anyone found on Google Maps	Everything in Basic · monthly visitor report by text · Google Business Profile tune-up · review QR cards for the counter
Pro	$149	Wants it all handled, or has lots of competition	Everything in Plus · monthly Google posts and photos · their own domain, bought in their name · business email · priority changes
Price list	$29	Stock changes daily; not ready for a website	Live price page · their own board to update from the phone · QR tags · tablet display · no minimum

Ways to pay

Way to pay	Setup fee	Good to know
12-month plan	None	Our default. Billed monthly.
6-month plan	None	Same monthly price, shorter commitment.
Month to month	$299 one time	Cancel any time with 30 days' notice.
Yearly up front	None	12 months for the price of 10.

Promises we make (and can keep)

- Live within **3 business days** of signing up.
- Changes are included: they text us, we do it.
- Their name, photos, words and domain **belong to them**.
- Every lead has a private **preview link** we can text. It works for 14 days and needs no login.

> **ALWAYS**
> Always quote prices **per month**, never per day. If this handbook and the app ever disagree, the app is right: it always has the current prices.

2 Before you start

Two minutes of prep makes you sound like you know them, because you do

- [ ] Open the lead and read the **Call guide**. It's written for this business: what their site has and what they'll likely ask.
- [ ] Tap **Preview**. Know three things on their site: the call button, their hours, their services or menu.
- [ ] Read the lead's **reason line**: no website, Facebook only, a broken site, or a page somewhere else.
- [ ] Read the **call log** so you don't repeat what a teammate already said.
- [ ] Check the **"Ask for"** name and the best time, if someone saved one.
- [ ] Going in person? Open the **In-person guide** for the best time of day and the walk-in script.

> **HOT LEADS FIRST**
> The **Up next** card on Home puts the most important leads on top: payments to finish, callbacks due, and anyone who just opened their preview. A preview-opened alert means call now, while it's fresh.

Which plan fits?

If they...	Suggest
Have a tight budget or only want the basics	Basic
Get most customers from Google or Maps	Plus
Want proof it's working	Plus (monthly report)
Want it all done for them, or have lots of competition	Pro
Want a business email (info@theirbusiness.com)	Pro
Want their own .com	Any plan: they buy it, or we buy it in their name (free on Pro)
Have stock that changes every day	Price list, or any plan (the price list is included)

3 On the phone

The goal of the first call is one thing: permission to text their preview

1 Say hello

"Hi, is this the owner? This is [your name] with Underground Associates, here in Cullman. Do you have one minute?"

2 Say why you're calling

Pick the line that matches the lead's reason:

- **No website:** *"I noticed [business] doesn't have a website, so I went ahead and built you one. It's already done."*
- **Facebook only:** *"I saw your Facebook page and built you a real website that shows up on Google too. It links to your Facebook."*
- **Broken or old site:** *"I pulled up your website and it doesn't work well on a phone, so I built you a new one."*
- **Page on another site:** *"I found you listed on another site, but you don't have your own, so I built you one."*

3 Ask to text it

"Can I text you the link so you can see it? It takes one minute, no cost to look."

4 Text it

Use the app's **Text preview link** button. Stay on the line while they open it if they're willing.

5 Show three things only

The call button, their hours, their services or menu. *"Anything I got wrong? I'll fix it right now."*

6 Ask one question

"How do most new customers find you right now?" Listen. Their answer tells you the plan.

7 Give the price, once they've seen it

"Most folks pick Plus. It's $89 a month, no setup fee on the 12-month plan, and it's live within 3 business days."

8 Ask for the yes

"Want me to get it going for you?"

9 Log it

Before you dial the next number. See chapter 7.

Not today

They say	You do
Call me another day	“Can I check back Thursday?” Log **Call back** with that day.
Let me ask my spouse or partner	Text the link so they can show them, then set the callback.
Just send me something	Text the preview. It's better than a brochure.
No (the second time)	Thank them, log **Not interested** with the honest reason. Done.

4 In person

You hand the owner a phone with their own finished website on it

When to walk in

Business	Best time	Avoid
Restaurants	2 to 4 PM, between lunch and dinner	Rushes, opening, right before closing
Salons, barbers, groomers	Weekday mid-morning, between clients	When they're with a client
Contractors and trades	7 to 8 AM at the shop, or late afternoon	Midday; call first if there's no shop
Auto repair	Weekday mid-morning or mid-afternoon	Opening drop-offs, closing pick-ups
Lawn care	Early morning, or a rainy day	Midday; call first if there's no shop
Cleaning services	Call first and ask for 5 minutes	Dropping in unannounced
Print and sign shops	Late morning or early afternoon	Deadline days (Fridays before games)
Shops and retail	Weekday after opening, or mid-afternoon	Sales, busy Saturdays
Churches	Tuesday to Thursday mornings	Sundays, services, Wednesday afternoons
Tax and insurance	Tax offices May to Dec; insurance mid-morning	Tax offices January to mid-April

What to bring

- [ ] Phone charged, app signed in, their preview already open.
- [ ] Two or three flyers with their code written in the box.
- [ ] This handbook's cut-out cards.
- [ ] Tap to Pay ready: NFC and Location on, Developer options off.

The walk-in

1. **Say hello**
   "Hi, I'm [your name] with Underground Associates, here in Cullman. Is the owner in? I only need a couple of minutes." Not in? Ask when they will be, leave a flyer, log **Owner not in**.

2. **Say why you're here**
   "I build websites for local businesses, and I already made one for you. Can I show you? It takes one minute."

3. **Hand them the phone**
   Let them scroll. Point at the call button, their hours and directions, and their services or menu.

4. **Fix something live**
   When they say *"we close at 7 now"*, tap **Edit**, fix it, **Save**. It updates in seconds. That's when they believe it's real.

5. **Ask questions**
   "How do new customers find you now? Do people call just to ask your hours?"

6. **Take a photo**
   Of the storefront, truck or shop (Edit → Photo). We can't publish Google's photo, so theirs replaces it.

7. **Give the price and ask for the yes**
   "Most folks pick Plus, $89 a month, no setup fee on the 12-month plan. Want to get it going today?"

8. **Log it on the spot**
   Talked in person, plus a one-line note.

> **NOT TODAY?**
> Leave a flyer: *"Type this code at undergroundassociates.com/code tonight and your site comes right up."* Text the preview if they say OK. Log **Left a flyer** or **Call back**. Never leave without a flyer, a text or a callback.

At the door, always

- Keep it under 5 minutes unless they keep talking.
- Step aside when a customer walks up. Their customers come first.
- Don't knock their current site or whoever made it.
- Leave on good terms. Plenty of people say yes on the second visit.

5 Signing up and payment

The whole sale happens on your phone in about three minutes

1. **Show the plans**
   Tap **Show plans** and let them read. It's customer-facing: no notes, no commission.

2. **Start the sign-up**
   Tap **Sign them up: Plus, 12-month**, or **Change plan or way to pay**. Add any extras they want.

3. **Ask about their web address**
   Free address that comes with every plan · a domain they buy or already own · or we buy it for them in their name (included with Pro). Either way, it's theirs.

4. **They sign**
   Hand them the phone. They type their full name, draw their signature, and agree. Want them to read it first? **Show them the agreement**, or give them the PDF.

5. **Take payment**
   In person: **Tap card on this phone** (they tap their card on the back of your phone), or type it on the secure payment sheet. On the phone: text them the sign-up link and they pay on a secure page.

6. **Done**
   The lead turns Sold and the team gets an alert. Tell them: *“You'll be live within 3 business days.”*

> **NEVER**
> Never take a card number over the phone, never write one down, never take cash for a plan. Every payment goes through the app's secure page or Tap to Pay.

Practice first

The lead named **“Payment test (not a real business)”** lets you run a whole sign-up and a real $1 payment. The owner resets it afterward. Do it once before your first real sale.

6 Objection answers

Listen fully, agree with the feeling, answer the real question

They say	You say
Word of mouth keeps us busy.	That's the best kind. When someone hears about you, the first thing they do is look you up on their phone. This makes sure they find your number and hours, not the place down the road.
I already have a Facebook page.	Keep it! The site links to it. But lots of people aren't on Facebook, and Facebook pages don't show up well on Google. This one's yours and works for everybody.
It's too expensive.	I hear you. Basic is $49 a month with no setup fee on the 6- or 12-month plan. If it brings you one customer a month, it pays for itself. You can move up any time.
I don't want a contract.	No problem. There's a 6-month plan, same price, no setup fee. Or month to month: a one-time $299 setup, cancel any time with 30 days' notice.
I need to think about it.	Of course. Is it the price, or whether it'll bring in business? (Answer that.) I'll text you the link to look at tonight. Can I check back Thursday?
I need to ask my spouse or partner.	Makes sense. I'll text you the link so you can show them. When's a good time to check back after you've both looked?
Just send me some information.	Better than a brochure, I'll text you your actual website. It only takes a minute to look at.
My nephew can build me one.	That works for some folks. We keep it running every month, with changes when you text, and yours is already built. You can see it right now.
I already have a website.	Name what's wrong with it: it doesn't load, or it's hard to use on a phone. If they own the domain, it stays theirs; we just point it at the new site.
I'm too busy for this.	That's the point: it's already built. I just need a few minutes to check your hours and services. After that, you text us changes.
I'm not good with computers.	You don't have to be. We do all of it. Want something changed? Text us like you'd text a friend.
Is this a scam?	Fair question. We're local, here in Cullman. You see your site before paying anything, nothing goes live until you say so, and I never take card numbers by hand.
Do I own it? What if I cancel?	Your name, logo, photos and text are always yours, and a domain you own stays in your name. We'll send you a copy of your site's files if you leave.
Can you guarantee more customers?	Nobody honest can promise that. It's built to show up on Google and make calling you easy, and Plus texts you every month how many people looked and called.
Do I need a domain name?	Three choices: the free address that comes with every plan, buy your own for $10 to $15 a year and we hook it up, or we buy it for you in your name (included with Pro).

They say	You say
Why does it cost money every month?	It covers hosting, security, keeping it working on new phones, and your changes. No surprise bills. Pay for the year and get 2 months free.
Do you have a referral program?	Yes. Send us a business that signs up for 6 or 12 months and you get 2 months of your plan free, up to 2 a year.
We'll take it to the deacons. (churches)	Of course. Can I leave this for that meeting? When do you meet? I'll check back the day after.
Not interested.	No problem at all. I built it for you either way. Can I text you the link in case you change your mind? Then thank them and go.

7 Logging and follow-up

If it isn't logged, a teammate calls them again tomorrow

What happened	Tap this	What the app does
Nobody picked up	No answer	Callback set for tomorrow
Talked on the phone	Reached	Add a callback day if they asked
Owner wasn't in (visit)	Owner not in	Callback set for tomorrow
Talked face to face	Talked in person	Books the next follow-up step
Left a flyer	Left a flyer	Marks them Shown, callback in 2 days
Saw it, wants to think	Interested	Marks them Shown, callback in 2 days
Asked for another day	Call back	You pick the day
Said yes	Sold	Clears the callback
Said no	Not interested	Asks why, clears the callback

Add **one line of notes** every time: who you spoke to and what to try next. Pick the honest reason on Not interested.

Follow-up schedule after they've seen it

When	Do this
Day 2	Call
Day 5	Text (use the Follow-up texts button)
Day 10	Stop by in person
Day 21	One last friendly text, then let it rest

Help: Training and Plans & answers are in the app · Office (256) 636-5886 · Something broken? Tap “Report this.”

8 Cut-out cards

Cut along the dashed lines and keep them in your pocket or car

Plans

Plan	/mo	Fits
Basic	$49	Get found, get calls
Plus	$89	Most businesses
Pro	$149	All done for them
Price list	$29	Daily stock, no site

No setup fee on 6 or 12 months · Month to month +$299 once · Yearly = 12 for 10 · Live in 3 business days

The phone call

1. Hello + one minute?
2. Why you're calling (reason line)
3. Can I text you the link?
4. Show call button, hours, services
5. How do customers find you?
6. Plus, $89, no setup on 12 months
7. Want me to get it going?
8. Log it

At the door

1. Is the owner in? 2 minutes
2. I already built you a website
3. Hand them the phone
4. Fix one thing live
5. Ask questions, take a photo
6. Price, then ask for the yes
7. Sign + Tap to Pay, or flyer
8. Log it on the spot

Quick answers

They say	Short answer
Facebook	Keep it, we link to it
Too much	$49, one customer pays for it
Contract	6 months, or month to month
Think about it	Price or results? Thursday?
Scam?	Local, see it first, no cards by hand
Not interested	Leave the link, thank them, go

Log every call

Phone	In person	Result
No answer	Owner not in	Interested
Reached	Talked in person	Call back
	Left a flyer	Sold / Not interested

Follow up: day 2 call · day 5 text · day 10 visit · day 21 last text
